### **Victorian Refrigeration & Victorian Sheet Metal rebrand to Victorian Projects**

We're pleased to announce that Victorian Refrigeration and Victorian Sheet Metal has rebranded to Victorian Projects.

This new name reflects the next stage in our journey—bringing together our specialist capabilities under one unified banner and expanding our offering to better serve the needs of our clients across Victoria.

“Since our founding in 2014, we've focused on putting clients and their projects first. This commitment has driven our evolution into a seamless, end-to-end delivery model—now realised through Victorian Projects. It marks the fulfilment of a long-held vision: to grow from a specialist in mechanical services and sheet metal fabrication into a fully integrated provider of mechanical, electrical, HVAC, and supporting services.” Mathew Sullivan, Director

Our Victorian Projects team will continue to partner with clients across the residential, commercial, and government sectors, delivering end-to-end solutions that are reliable, safe, and fully compliant. Our expanded capabilities include:

- Commercial and residential HVAC systems
- Custom sheet metal fabrication
- Integrated mechanical-electrical solutions
- General building works and site services.

We've also launched a new and updated website ([www.victorianprojects.com.au](http://www.victorianprojects.com.au)) where you can explore our capabilities, past projects, and the industries we serve—all in one place.

We are still trading under the company name Victorain Sheetmetal so the ABN and bank details remain the same.

We thank you for your continued support. For any questions regarding Victorian Projects, please contact Mathew Sullivan.
